Tuesday and Wednesday will include many presentations by Active and Retired Air Force personnel.

Order your Association memorabilia for pick-up at the Convention to save the delivery charges.

# Historic Patterson Homestead Tea and Tour - May 3<sup>rd</sup>

(For ticket holders, meet in front of the hotel to carpool to this event)

Join us for a 19th century afternoon tea at the historic Patterson Homestead. The Patterson Homestead (est. 1816) is the former home of Revolutionary War soldier and Lexington, KY founder Colonel Robert Patterson and NCR founder John H. Patterson.

Your afternoon begins with a tradition that spans several generations: the afternoon tea. This tradition has its roots in England, where it quickly spread and became a treasured pastime for women in Victorian America. At the Patterson Homestead, we serve in the style of the traditional afternoon tea: three delicious courses consisting of breads, sandwiches, and desserts, all based upon historic Victorian-era recipes. Guests are welcome to try two varieties of our loose-leaf teas, a black tea and herbal tea chosen especially for the themed tea program.

Sit back and enjoy as you learn about the Patterson family, the historic Homestead, and life in Victorian America. After the tea, you are welcome to tour the Patterson Homestead at your leisure, with costumed interpreters available to answer any questions you may have.”

(Completion depending on weather)

## **United States Air Force Civil Engineer Memorial**

**Dedicated to**

**Air Force Civil Engineers**

**who plan, build, protect, recover, and sustain installations and facilities worldwide.**

**Wednesday May 4, 2022**

Air Force Museum, Wright Patterson Air Force Base  
Dedication Ceremony followed by  
A Reception in the Museum

# Aviation Tour Thursday May 5<sup>th</sup>

(Includes

**Huffman Prairie Interpretive Center** – The Huffman Prairie Interpretive Center exhibits focus on the Wright brothers’ experimental flights at Huffman Prairie Flying Field in 1904 and 1905, and on The Wright Company’s flying school from 1910 to 1916. A National Park Ranger will bring history to life! The Interpretive Center also covers the history of Wright-Patterson Air Force Base from its beginnings at McCook Field in Dayton during World War I, up to its contributions to the aerospace projects of the future now being carried out at its current complex, which includes

the Huffman Prairie Field where Wilbur and Orville Wright turned their invention into a practical machine.

**Wright Memorial** – The Memorial is located at the top of Wright Brothers Hill next to the Interpretive Center, overlooking the Huffman Prairie Flying Field. A plaque on the low stone wall surrounding the plaza around the Memorial lists the names of the 119 pilots trained at Huffman Prairie. The Memorial was erected by the citizens of Dayton to honor Wilbur and Orville Wright for their original aeronautical research.

## Aviation Heritage Center

### Aviation Trail Parachute Museum and Wright Cycle Shop

The Aviation Trail Parachute Museum is located on the second floor of the Aviation Trail Visitor Center. The Museum tells the story of the development of the free fall parachute from its invention at Dayton’s McCook Field after World War I, up to the vital role it plays in safely landing today’s spacecraft. The timeline around the soffit of the exhibit space highlights significant events in the history of the parachute. The Museum also includes interactive exhibits, artifacts, historic photographs, and text. The museum maintains what is considered one of the most comprehensive private parachute collections in the world, with research materials permanently housed at Wright State University Library. The 4th bike shop that the Wright Brothers operated is a fixture of Dayton Aviation Heritage National Historical Park. Come see the bike shop where the Wrights fixed bicycles and refined their mechanical ingenuity to develop the world’s first practical airplane.

## Carillon Historical Park

Carillon Historical Park, part of Dayton History, showcases our rich heritage of creativity, invention and milestones of innovation that changed the nation and the world. Among the 24 attractions at this unique 65-acre outdoor museum is the *original* 1905 Wright Flyer III, the world’s first practical airplane. This airplane made history over Huffman field in Greene County.

# Visit the National Museum of the Air Force Friday May 6<sup>th</sup>
